

## Production of piano covers by paper model:

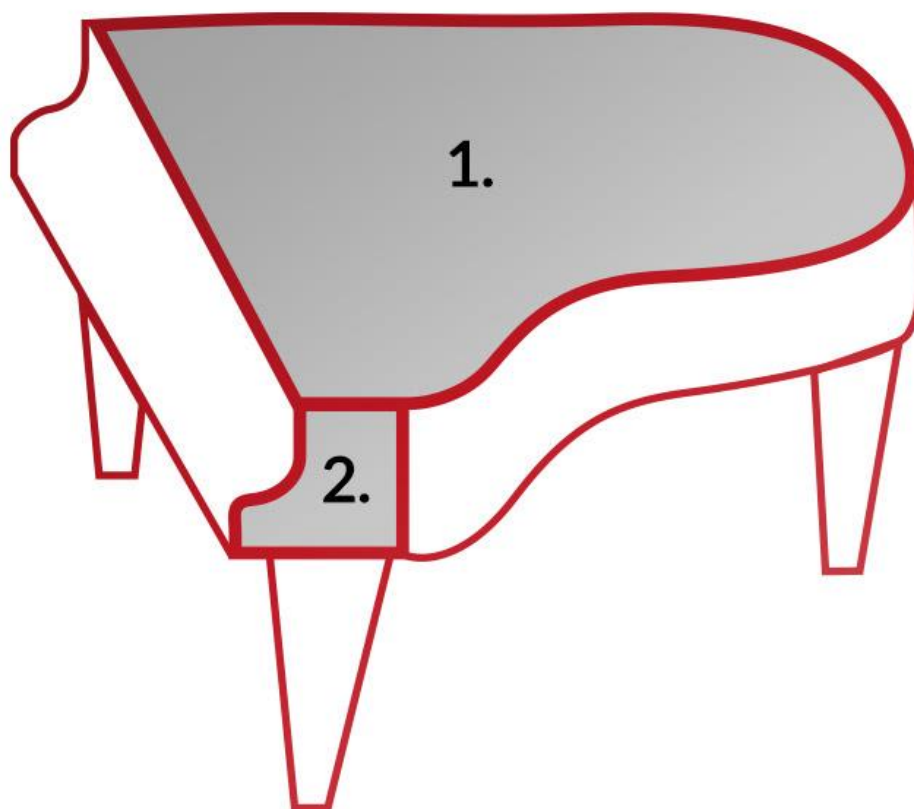

### **Template of cover (point 1)**

1. Place the sheet on the piano and weigh down the sheet in 3 places so that the sheet doesn't slip when drawing. 1. back. 2. left front and 3. right front.
2. Take a thick, waterproof black pen and trace the edges of the top exactly.
3. ATTENTION: The seam is added by production.

### **Template of sides (point 2)**

1. Attach sheet on the top on the treble side and trace the contours from keys to top.
2. Take a thick, waterproof black pen and trace the edges exactly.
3. ATTENTION: The seam is added by production.

Then fold the sheet back up and send back to us with a copy of your order.

The paper model as specified is sent to:

**Knud Danielsen ApS  
Bybjergvej 8
